AMY ELLIOTT

Sometimes, I get so tired of his, ...his everything. You know? Not sometimes, though. All the time, lately. The way he expects me to just bow down to his authority. All the stupid crap he buys. Expects me to ignore how late he returns from work. Who's he out with? What's he up to? I'm going to find out. Need to show him what he's got coming, if my guess is right. This should be challenging, but fun. ¡Adios!

GONE GIRL by Gillian Flynn

-soon to be a major motion picture

A dysfunctional husband-wife relationship is made even more complex when Amy Elliott goes missing. While the perpetrator, along with the public, media, and the police look on, her disappearance launches husband Nick Dunne on a gripping adventure of self-discovery as he attempts to defend himself and learn what exactly happened to his wife.

perspective:

NICK DUNNE

She disappeared and I don't know where she is. Not a clue. How'm I s'pose to know? I'm not a mind reader. Nobody knows where she is, of course. The police can't seem to find her. Just like my Amy to out-think everyone. Unless something else happened, I can't rule the unexpected out... And I keep screwing up around the media. When will they turn on me, think I did it? Why is my wife so damn difficult!?
